

Image and Figure Sample

This sample verifies image embedding, borders, captions, alignment, and automatic figure numbering.

1. Centered Figure

Figure 1. A wide placeholder figure used to test centered layout.

2. Left-Aligned Figure

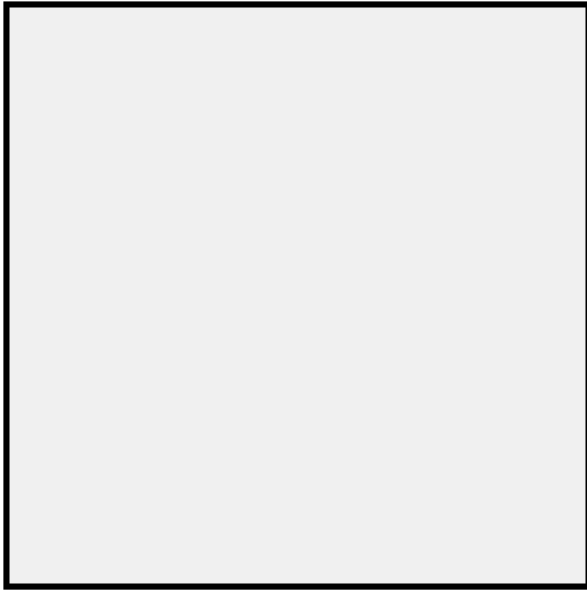

Figure 2. A left-aligned square figure.

This paragraph follows a left-aligned figure and confirms that normal layout flow resumes correctly.

3. Right-Aligned Figure

Figure 3. A right-aligned figure.

This paragraph follows a right-aligned figure and confirms that normal layout flow resumes correctly.
