

References Sample

This sample verifies plain string references, structured references, long reference pagination, and hanging indentation.

1. Plain References

- [1] Author One. Formal Document Systems. Academic Press, 2024.
- [2] Author Two. Automated Layout Engines. Technical Review, 2025.
- [3] Standards Council. Official Document Formatting Guidance. 2026.

2. Structured References

- [1] A. Researcher. Document Generation Architecture. Engineering Press, 2025.
- [2] B. Editor, C. Reviewer. Typography and Formal Reports. Journal of Document Science, 2024. <https://example.com/typography>. Accessed August 2026.
- [3] D. Specialist. PDF Layout Constraints. Conference Proceedings, 2023.

3. Long Reference List

Extended References

- [1] Author 1. Research Paper 1 on Formal Document Engineering. Technical Publishing House, 2000.
- [2] Author 2. Research Paper 2 on Formal Document Engineering. Technical Publishing House, 2001.
- [3] Author 3. Research Paper 3 on Formal Document Engineering. Technical Publishing House, 2002.
- [4] Author 4. Research Paper 4 on Formal Document Engineering. Technical Publishing House, 2003.

- [5] Author 5. Research Paper 5 on Formal Document Engineering. Technical Publishing House, 2004.
- [6] Author 6. Research Paper 6 on Formal Document Engineering. Technical Publishing House, 2005.
- [7] Author 7. Research Paper 7 on Formal Document Engineering. Technical Publishing House, 2006.
- [8] Author 8. Research Paper 8 on Formal Document Engineering. Technical Publishing House, 2007.
- [9] Author 9. Research Paper 9 on Formal Document Engineering. Technical Publishing House, 2008.
- [10] Author 10. Research Paper 10 on Formal Document Engineering. Technical Publishing House, 2009.
- [11] Author 11. Research Paper 11 on Formal Document Engineering. Technical Publishing House, 2010.
- [12] Author 12. Research Paper 12 on Formal Document Engineering. Technical Publishing House, 2011.
- [13] Author 13. Research Paper 13 on Formal Document Engineering. Technical Publishing House, 2012.
- [14] Author 14. Research Paper 14 on Formal Document Engineering. Technical Publishing House, 2013.
- [15] Author 15. Research Paper 15 on Formal Document Engineering. Technical Publishing House, 2014.
- [16] Author 16. Research Paper 16 on Formal Document Engineering. Technical Publishing House, 2015.
- [17] Author 17. Research Paper 17 on Formal Document Engineering. Technical Publishing House, 2016.
- [18] Author 18. Research Paper 18 on Formal Document Engineering. Technical Publishing House, 2017.
- [19] Author 19. Research Paper 19 on Formal Document Engineering. Technical Publishing House, 2018.
- [20] Author 20. Research Paper 20 on Formal Document Engineering. Technical Publishing House, 2019.
- [21] Author 21. Research Paper 21 on Formal Document Engineering. Technical Publishing House, 2020.
- [22] Author 22. Research Paper 22 on Formal Document Engineering. Technical Publishing House, 2021.

- [23] Author 23. Research Paper 23 on Formal Document Engineering. Technical Publishing House, 2022.
- [24] Author 24. Research Paper 24 on Formal Document Engineering. Technical Publishing House, 2023.
- [25] Author 25. Research Paper 25 on Formal Document Engineering. Technical Publishing House, 2024.
- [26] Author 26. Research Paper 26 on Formal Document Engineering. Technical Publishing House, 2025.
- [27] Author 27. Research Paper 27 on Formal Document Engineering. Technical Publishing House, 2026.
- [28] Author 28. Research Paper 28 on Formal Document Engineering. Technical Publishing House, 2027.
- [29] Author 29. Research Paper 29 on Formal Document Engineering. Technical Publishing House, 2028.
- [30] Author 30. Research Paper 30 on Formal Document Engineering. Technical Publishing House, 2029.
- [31] Author 31. Research Paper 31 on Formal Document Engineering. Technical Publishing House, 2030.
- [32] Author 32. Research Paper 32 on Formal Document Engineering. Technical Publishing House, 2031.
- [33] Author 33. Research Paper 33 on Formal Document Engineering. Technical Publishing House, 2032.
- [34] Author 34. Research Paper 34 on Formal Document Engineering. Technical Publishing House, 2033.
- [35] Author 35. Research Paper 35 on Formal Document Engineering. Technical Publishing House, 2034.
- [36] Author 36. Research Paper 36 on Formal Document Engineering. Technical Publishing House, 2035.
- [37] Author 37. Research Paper 37 on Formal Document Engineering. Technical Publishing House, 2036.
- [38] Author 38. Research Paper 38 on Formal Document Engineering. Technical Publishing House, 2037.
- [39] Author 39. Research Paper 39 on Formal Document Engineering. Technical Publishing House, 2038.
- [40] Author 40. Research Paper 40 on Formal Document Engineering. Technical Publishing House, 2039.
